COIL WIRE

Supports more.
A true fact

DESCRIPTION

Gauge 14.5 Coil Wire Wound for forage packaging. The wire is annealed in ovens within a controlled atmosphere, avoiding husk formations on the wire.

International quality wire is utilized as a raw material.

The coil has also three ties to prevent its deformation caused by handling and storage.

QUALITY NORMS

- The wire is manufactured in accordance with quality norm ANSI/ASAE S229.6

MECHANICAL PROPERTIES

- Tension resistance (35 kgf/mm² to 00 kgf/mm²).

APPLICATIONS

- Multiple forage packages.

PRESENTATION

- Coils with a minimum length of 1,980m (6,500 feet)
- Approximate weight of 45 kg.
- Packaged with three equidistant plastic ties and a plastic bag, within a resistant cardboard box with removable centers.

ADVANTAGES

- Perfect winding that allows a useful and continuous operation, avoiding clogging, waste, and time losses.
- The wire is lubricated, allowing a correct and easy gliding through packing machine guides.
