VILLACERO NAILS

Support more
A true fact.

DESCRIPTION

We offer a wide variety of nails with or without head. Manufactured under a wiredrawing process, the desired gauge of the nails is selected, they then pass into a machine that cuts them to the required length, shaping the head and end. They finally undergo a careful cleaning process which leaves them ready for their utilization. It is worth noting, that they are manufactured with the highest technology processes, using high quality wire as raw material.

PRESENTATION

- 25 kilogram packages
- Nails arranged in parallel
- Ends type centered diamond, free of burrs and waste

MECHANICAL PROPERTIES

Manufactured in carbon steel

APPLICATIONS

- Carpentry
- Wood structures
- Pallets
- Wood houses
- Furniture industry
